

PHASTAR Corporation

Davis Aerospace & Maritime High School

The Davis Aerospace & Maritime High School provides area students with real world educational, technical and trade skills creating a direct pathway to the 21st century high paying careers in Ohio and beyond. We believe the timing is ideal given the substantial public-private interests and resources available for human capital and building investments. Efforts to provide better local opportunities for our younger generation, green building practices and greater lakefront access for the public, all point to the success of this vision.
