

The National Sailing Hall of Fame

The National Sailing Hall of Fame STEM Sailing; Learning Math & Science through Sailing Program has been created, developed and implemented by The National Sailing Hall of Fame to teach math and science, to engage sailing's next generation and to enable new groups of people to appreciate sailing.

We believe the STEM Sailing initiative makes an important contribution to the national STEM (Science, Technology, Engineering & Math) program, thereby enhancing the future research, engineering and high-tech U.S. workforce.

We have a proven academic program enhanced by sailing for which students receive academic credit that can be replicated in schools across the country.

Program Statistics:

	Adults	Youth
Number of Participants		3,865 to date
Number Achieving Program Goal		3,856 to date

Size of Budget	
Number of Employees	1
Number of Volunteers	16
