

## Grigg Mullen & Friends, boatbuilders

There is as yet no specific boatbuilding program. We have successfully completed one boat, a traditionally built 25' Hooper Island dovetail.

I am retiring this year and hope to transition to more time spent boatbuilding, with the hope of helping at various maritime museums as needed.

Additional Data: At present there is no program. I am retiring May 16, 2017 after 40 years of work as a Civil Engineer, the last 25 of them spent teaching civil engineering at Virginia Military Institute.

I sidelined a serious woodworking hobby for those 40 years and now hope to indulge myself in sawdust production during my retirement. Childhood time spent on the Eastern Shore instilled a love of bay workboats that led to building a 25' dovetail. I hope to continue in that vein while helping with the boatbuilding program at the CBMM.
