

# WATERMEN'S MUSEUM

## *Introduction to Boat Building*

As part of our hands-on educational programs, the Watermen's Museum offers introductory boat building for our partner programs. These partners include the Williamsburg Montessori Middle School, the Point Option High School (at-risk), and the Lifeskills Learning Center & ARC of Williamsburg (developmental disabilities).

Our Boat building program is less about building boats than it is about creating value in our participant's lives. Boat building therefore is an opportunity to address many life skills and lessons, including: having an accepting and caring environment in which to try new things, make mistakes and learn from these mistakes; learning how to follow instructions and asking for additional guidance if these instructions are confusing; and learning how to ask for and offer help.

### **Program Statistics (Annually): (feel free to add more or alter statistics categories)**

Number of Participants	50-100
Number Achieving Program Goal	75
Size of Budget	
Number of Employees	3
Number of Volunteers	15
